

Presenter's Notes:

Healthy Youth Survey (2002) Results Presentation

This presentation illustrates selected results from the "Healthy Youth Survey 2002 Survey Results" reports for your school, district, county, or Educational Service District (ESD). *The presentation is intended only to display highlights and should be used in conjunction with your report, which contains much more detailed information.* Please refer to your report for information about the following:

- The number of students who responded to each item.
- The complete wording of each item and the corresponding answer choices.
- The exact value of the margin of error.
- Notes or cautions about some items.

When using this presentation, please note the following:

- The items included in this presentation were selected for their general importance and usefulness. The same 36 items are reported for all schools, districts, counties, and ESDs.
- The colored bars show the percentage of students responding to a given item who gave the indicated response. The "whisker" bars show a 95% confidence interval for that percentage.
- The Student Participation slide shows the number of students in your school, district, county, or ESD who submitted valid surveys. (Percentage of enrolled students is also indicated for district, county, and ESD presentations.) Participation at some grades is shown as "Not reported," meaning no results are reported at that grade for one of the following reasons:
 - No students in that grade participated in the survey in your school or district.
 - Fewer than 15 students completed valid surveys at that grade in your school, district, county, or ESD. To protect student anonymity, we cannot display these results.
 - Only one school in your district or county participated at that grade. For information about students at that grade, refer to the presentation for the participating school.
 - Fewer than 40% of the students enrolled in your district, county (or sampled schools within your county), or ESD returned valid surveys. Results based on a small percentage of eligible students are not likely to be representative of the district, county, or ESD as a whole and thus were not reported.

The presentation includes the following items from the report. Note that some slides report items not included on the elementary version of the survey and thus do not display information for Grade 6.

Slide Number	Slide Title	Local Report Item Number	Item On Elementary Version?
1–2	<i>Title slide/Participation summary</i>	—	—
3	Lifetime Cigarette Use	13	Yes
4	Lifetime Regular Smoking	39	Yes
5	Current Cigarette Smoking	25	Yes
6	Current Smokeless Tobacco Use	26	Yes
7	Resistance to Peer Smoking	40	Yes
8	Lack of Intent to Smoke	41	Yes
9	Aversion to Smoking	230	Yes
10	Lifetime Alcohol Use	16	Yes
11	Current Alcohol Use	31	Yes
12	Current Binge Drinking	72	No
13	Lifetime Marijuana Use	17	Yes
14	Lifetime Illegal Drug Use	Lifetime use composite	Yes
15	Current Marijuana/ Hashish Use	32	Yes
16	Current Illegal Drug Use	30-day use composite	Yes
17	Substance Use at School	73	No
18	Weapon Carrying	111	No
19	Weapon Carrying At School	112/113	Yes
20	Physical Fighting	114	No
21	Gang Membership	115	Yes
22	Bullying	136	Yes
23	Enjoyment of School	182	Yes
24	Feeling Safe at School	193	Yes
25	Opportunities for Involvement	189	No
26	Depression	126	No
27	Contemplation of Suicide	127	No
28	Seat Belt Use	104	Yes
29	Riding With a Drinking Driver	105	No
30	Excessive Television Viewing	86	No
31	Sufficient Moderate Activity	84	No
32	Sufficient Vigorous Activity	83	Yes
33	Neighborhood Aversion to Marijuana	160	Yes
34	Neighborhood Aversion to Alcohol	161	Yes
35	Neighborhood Aversion to Smoking	162	Yes
36	Perceived Availability of Drugs	Community Risk Factors	Yes
37	Favorable Attitudes to Drug Use	Peer-Individual Risk Factors	Yes
38	Perceived Risks of Use	Peer-Individual Risk Factors	Yes
